

Fibion Sensor Participant Guide

Provided by: Chrysanth Hamberger & Anna Biller

Date: 10/03/2024

Version: 1.2

How to wear the Fibion Sensor?

- left thigh 10 cm above knee
- outside of the thigh
- change the patch when it is not sticky anymore
- don't wear while in the sauna
- swimming and bathing/shower is OK!
- **Video for attaching patch and device:** <https://www.youtube.com/watch?v=VRiQ3CorFnQ>

ATTACHING PATCH AND DEVICE

1 Clean the skin where the patch is meant to be placed.

2 Remove the back side.

3 Place the patch on the outer side of the thigh.

4 Remove the white edge.

fibion

!! Don't change the position unless you need to because of skin irritations.

If so please log under non-wear time in the momentUM App. !!

Installation of the SENS Innovation App

Download the App following this link:

<https://support.sens.dk/hc/en-us/articles/6670698052253-Installation-of-the-SENS-motion-smartphone-App>

or install using by scanning the QR code:

How to read data from the device?

- Please use the SENSmotion App now to download the data from the Fibion Sensor (the white sensor placed on the thigh).
- Follow the steps:
 - 1) Make sure to have Bluetooth enabled on your phone
 - 2) Open the SENSmotion App

3) Click on "Favourite Sensor"

4) You should see a status bar saying "syncing" and the % of synchronisation

How to log non-wear time?

- if you need to change the placement, please describe precisely in the **momentTUM App**
- log non-wear time in the logbook of the **momentTUM App**

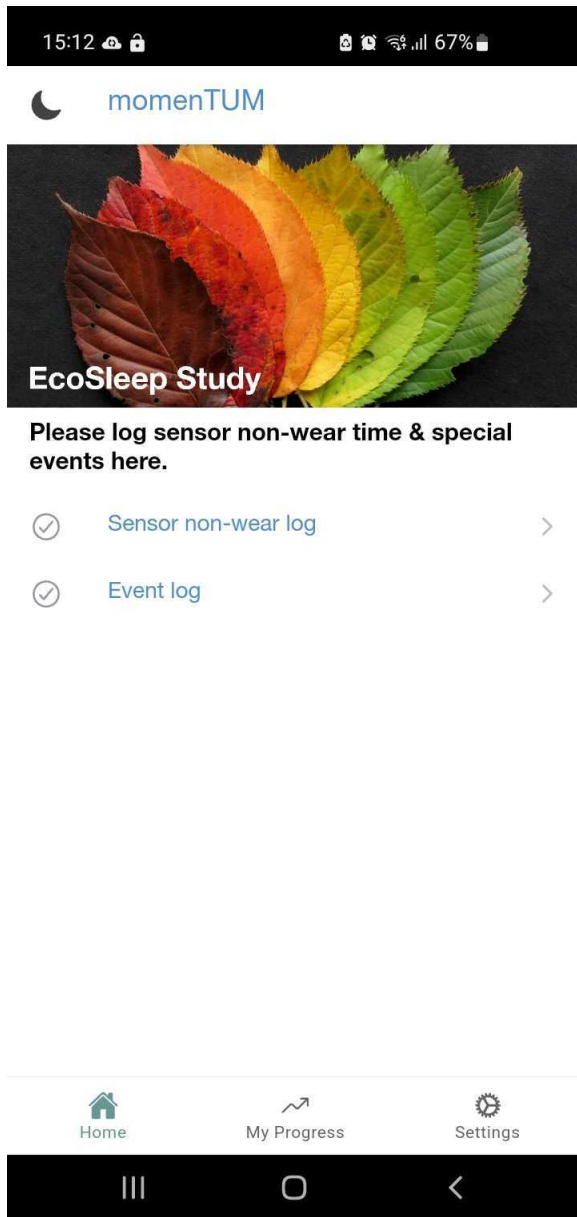

Figure 1 | Log non-wear time here in the Sensor non-wear section of momentTUM

Figure 2 | Log the exact non-wear time for the light logger.

Where to download the momentTUM App for logging-non wear time?

- Apple Appstore:

<https://apps.apple.com/de/app/tum-momentum/id6444047291>

- Google Playstore

<https://play.google.com/store/apps/details?id=de.tum.sg.momentum&pli=1>
